COMMON CAUSES OF POWER OUTAGES

There is never a good time for the power to go out, but if it happens on a sunny day, you might be left wondering why. Here are the most common causes of a power outage.

WEATHER

High winds, snow and ice can cause tree limbs to fall on power lines. Other weather effects, like wildfires and lightning strikes, can cause major damage to equipment.

CRITTERS

Squirrels, birds, snakes and other animals can inadvertently contact power lines, causing short circuits and disruptions to electrical supply.

ACCIDENTS

Vehicles can crash into utility poles, bringing down power lines. Construction and excavation work can also result in disruptions to underground lines.

Scheduled MAINTENANCE

Occasionally, we plan outages to perform upgrades or repairs to parts of the local grid.

Please contact the Customer Service Office regarding questions for life support, customer service policies, payment extensions and address changes. You may also find additional information on our website, www.RP-L.com.

Returned checks or returned ACH payments will be charged a return check fee.
